What Are Lentil Bagels?

Lentil Husk Bagel is a healthy and functional food product made with the goodness of Red Lentils and Fiber-Rich Husk. It combines taste with health benefits, making it a better choice for daily snacks and meals.

Target Population:

- Celiac Disease Patients
- Diabetic Patients
- Weight Management / Obese Individuals
- Cardiovascular Patients
- People with Digestive Issues

Therapeutic Benefits

Celiac Disease: Made without wheat-based ingredients, suitable for individuals following a gluten-free diet when prepared under gluten-free conditions.

Diabetes Management: High fiber content (15% Daily Value) and a low Glycemic Load (GL = 8) help support stable blood sugar levels by slowing glucose absorption.

Heart Health: Fiber-rich ingredients support healthy cholesterol levels and promote overall cardiovascular health.

Digestive Health: Psyllium husk supports normal bowel movement and improves overall digestive function.

Weight Management: High fiber and protein content help increase satiety, which supports appetite control and healthy weight management.
